

PRODUCT DATA SHEET

HB01 Hydro Band

High Strength, Stitch Bonded Polyester Non-Woven, Reinforcing Membrane

Product Description:

SCC HB01 Hydro Band is a high strength stitch bonded polyester (SBP), non-woven reinforcing membrane for use in conjunction with SCC waterproofing systems.

Characteristics/Advantages:

- Non-shrink
- Extremely tough and flexible
- Highly effective reinforcement of waterproofing systems

Uses:

SCC HB01 Hydro Band is to be used in conjunction with SCC Waterproofing systems where reinforcement is required to ensure a homogeneous and seamless waterproofing coating.

Common applications requiring reinforcing with **SCC HB01 Hydro Band** would include lap joints, overhangs, parapet walls, roof ridges, roof screws, and skylights, or other areas where two substrates are to be joined.

SCC HB01 Hydro Band is suitable for use in conjunction with SCC waterproofing systems, acrylic and bitumen based waterproofing systems.

Product Properties:

Physical Form:	SBP (Stitch bonded polyester membrane)
Colour:	White
Membrane Width:	200 mm
Membrane Length:	10 m

Surface Preparation:

Ensure that surfaces are dry, in sound condition, clean and free from any contaminants such as dust, dirt, rust, salt, algae and grease. Remove all loose materials mechanically, then thoroughly clean surfaces with a suitable surface cleaner. Metal surfaces must be free of rust. Metal surfaces must be primed with a suitable metal etch primer (including screw heads.)

Application:

Follow the application specifications of the product or system that the **SCC HB01 Hydro Band** is to be used in conjunction with.

Packaging:

SCC HB01 Hydro Band is supplied in 200mm x 10m rolls.

Storage:

Store in a cool, dry place.
